## WORK EXPERIENCE

BloomHouse Marketing 2022 - Present

Lead Developer & Creative

I began my time with BloomHouse as a developer. I quickly outgrew my role and became lead designer also.

- I absorbed the job and responsibilities of 5 part-time employees within my first few months.
- Rebranded the company from Digital Esque to BloomHouse with a new logo and brand guide.
- Designed, wrote, & developed a new company website
- Managed over 20 clients' websites simultaneously.
- ReBranded/Designed/Developed 16+ clients & their websites.

Huntsman Media 2013 - 2022

Owner / Lead Developer & Creative

Founded this agency to develop my technical and creative skills in the web field. I've served various organizations, individuals, and unique clients throughout a decade of changing technology and trends.

- Designed, developed, and managed client websites
- Develops custom WordPress plugins to solve unique client needs according to their specifications
- Used modern SEO practices to optimize and improve clients' SEO rankings
- Improved client website load times by more than 5x
- Set up hosting for 20+ sites on multiple platforms

Newsong (Humanitarian Nonprofit) 2016 - 2018

Lead Designer / Developer

The lead designer during an organization rebrand – websites, print media, socials, and in-person events that were all modernized and updated during my time.

- Designed, coded, & developed a new company website with buy-in from multiple department stakeholders
- Managed the transition to a new user & payment system involving over 20,000 accounts
- Created new web-based staff workflows & systems
- Designed all event, campaign, and social graphics

## EDUCATION

Agape Amsterdam Internship 2014-2016

Graphic Designer

Internship role that transformed into a full-time staff position as a designer/developer.

- Crafted creative solutions for all department design needs.
- Maintained company & associates' WordPress sites.
- Redesigned & created assets for an Agape associate.
- Designed a quarterly print magazine.
- Helped write, film, and edit promotional videos.
- Designed event, campaign, and social graphics.

Just Me & Some Tutorials 2008-2014

You might have noticed a lack of degree on my resume - and if you hadn't noticed before... oops. It's true; I don't have a degree of any kind. What got me to where I am today was a lot of hard work, dedication to my craft, trial and error, years of tutorials, and the grit never to give up. I believe these are qualities you can't teach in a classroom or certify through a degree - my portfolio and work experience show I'm capable of degree-level work (whatever that means).

I know I would be a valuable and productive asset to you and your company - I hope I get the chance to prove myself.
